

EVERY FIGHT

E A
Our old man took on the universe
E B
Said we had to fight for everything
E A
I didn't know it was a figure of speech
E B
When he said we had to step in the ring

E A
Even when I won I kept losing
E B
More and more of myself
E A
Whenever I got some sense knocked into me
E B
It got knocked right back out

chorus:
A E
Every fight I've ever had is me against myself
B E
With someone caught in the middle

E A
Hang up your gloves said the doctor
E B
I took them off and punched him in the jaw
E A
I was the one who didn't see it coming
E B
Didn't see the stars that he saw

E A
The sun got hot, I gave it the finger
E B
When everything got cold I kicked the snow
E A
Then I went and picked a fight with cancer
E B
And every treatment I could undergo

[chorus]

A E A E A E B

E A
A watched pot does in fact boil
E B
If I knew what moron said it never does
E A
I'd kick his ass from here to Schenectady
E B
And his granny while I'm at it just because

E A
Our old man took on the universe
E B
Said we had to fight tooth and nail
E A
I ain't got no teeth or nails left
E B
I just watch the sailboats sail
A E
Shut my trap and watch the sailboats sail
