

# LUZ

                  G  Bm  
Couldn't get my arms around you, I held you like a ledge  
Am  C  
My nose in your apron that smelled of Lemon Pledge

                  G  Bm  
You cleaned our house every day, vacuumed mostly air  
Am  C  
Wiped away fingerprints that were not even there

                  G  Bm  
And when I needed to be held, you held nothing back  
Am  C  
Didn't care how white I was in your arms of black

Bm  Am  
Luz was short for Lucy, like the morning light  
C  G  
Warm as sunshine after a cold dark night

G  Bm  
Lenora was your granddaughter, we were in first grade  
Am  C  
My own grandma lived on a farm, didn't have a maid

G  Bm  
When she died I missed her but I missed you more  
Am  C  
The lady who replaced you broke my model cars

                  G  Bm  
And when I needed holding, no arms could I find  
Am  C  
I miss you still, always will, in this little boy's mind

Bm  Am  
Luz was short for Lucy, like the morning light  
C  G  
Warm as sunshine after a cold dark night  
C  G  
Warm as sunshine after a cold dark night
