

## MADE FOR ME

Those arms were never made to keep all to yourself, that light wasn't made to dim  
That heart wasn't made to leave upon a shelf, feelings were not made to be fenced in  
Those legs were never made to run the other way, that shoulder wasn't made to be cold  
That tongue wasn't made to turn into clay, love wasn't made to withhold

chorus:

Rain was made for rain clouds, clouds were made for rain  
Trains were made for train tracks, tracks were made for trains  
Bees were made for flowers, flowers made for bees  
I was made for you, you were made for me

bridge:

This day wasn't made to waste  
These hands were made to touch your face

That song wasn't made to sing under your breath, that dream wasn't made to toss aside  
That painting wasn't made to lock inside a shed, colors were not made to hide  
That dress wasn't made to be hanging in the past, that wineglass wasn't made for dust  
A kiss wasn't made to go by so damn fast, a slow dance wasn't made to rush

[chorus + repeat last line]
