

NEVER LET A LADY DRINK ALONE

C G
Never break her pretty little plate with the pretty little horse-drawn cart
C
Never break the promise you made to never break her heart
G
Never shrink the dress she wore the day when you two met
C
Never shrink away from her and turn into a speck
F
Never wear an old man's cheap cologne
G C
And never let a lady drink alone

C G
Never say her pa's in jail even if it's true
C
Never say the clouds look white because the sky's so blue
G
Never talk when it's her turn, not even in your head
C
Never try to read her mind, read her heart instead
F
Never let your soft side turn to stone
G C
And never let a lady drink alone

C G
Never grab your knife and fork before she picks up hers
C
Never think you always know which station she prefers
G
Never disbelieve that you're the one that she adores
C
Never fail to run ahead and open all the doors
F
Never be asleep when she comes home
G C
And never let a lady drink alone

Never let a lady drink alone
