

NIGHT CRAWLERS

G
When I close my eyes on warm rainy nights
Am
I see worms shy away from my flashlight
F#m
Back in the ground, slipping from sight
G
What do you see when you close your eyes?

G
A quarter for every dozen we picked
Am
A pepperoni pizza that made us all sick
F#m
In a fisherman's little house in the sticks
G
What do you see when you close your eyes?

G
A basement where he kept his live bait
Am
A big wide garage with nets inside crates
F#m
Four boys in one bedroom, the youngest my age
G
What do you see when you close your eyes?

Bm
When you close your eyes, what do you see?
Am F#m
Everyone sees everything differently

G
The river the way it was before
Am
Sewage and industrial waste got poured
F#m
Fish a fisherman saw no more
G
What do you see when you close your eyes?

[repeat first verse]
