

POINT ME

G C
When people point to themselves, most of them point to their heart

G Bm
The 2% who point to their head aren't really all that smart

C G
Love is who we are, not something in the air

D C G
Point me to that heart of yours and I will be right there

G C
When a train enters a tunnel, every mind goes to the same place

G Bm
My brain doesn't work that fast, I'm still standing on first base

C G
A kiss isn't just a kiss, Casablanca won't get us anywhere

D C G
Point me to that heart of yours and I will be right there

C G
When a finger points to the moon, don't keep looking at the finger

C Bm D
Look at the moon it's pointing to, that's where all the starry eyes linger

G C
When I started looking for you, I didn't know where to go

G Bm
People pointing every which way, just a big old crazy show

C G
There's no such thing as time, there's no time to spare

D C G
Point me to that heart of yours and I will be right there
