

## RIP VAN WINKLE

D G  
Under the bridge goes the river like a lullaby  
D G  
Two sleepy old towns fast asleep on either side  
G D  
Like an old couple in two separate beds  
G D  
With dreams of each other floating by in their heads  
D G  
Under the bridge goes the river like a lullaby

D G  
The bridge sleeps through the winter in a coat of gray  
D G  
Up on the rafters we climb with old cans of paint  
G D  
We'll start dozing off and if we should fall  
G D  
We'll dream that old river catching us all  
D G  
The bridge sleeps through the winter in a coat of gray

instrumental: G D G D G D A

D G  
Under the bridge goes the river like a lullaby  
D G  
The old man with sleepy red eyes on the other side  
G D  
An old dream gone wild like a dream-wild horse  
G D  
That glides through the water the whole way across  
D G  
Under the bridge goes the river like a lullaby  
A G D  
Under the bridge goes the river like a lullaby
