

RUNAWAY FORKLIFT

C F
I am on a mission to give your spirits a lift
C F
Puttering around the mall looking for a gift
G F
I should just come over to your house
F G
Best if I did that unannounced

chorus:

F C G
I can be a little too slow but I'm never a little too fast
F C G
In a place I've never been, a long ways from my past
F C G
A loose cannon I am not, no harm will I do
F G C
I'm just a runaway forklift on my way to you

C F
That old loading dock is not where I belong
C F
It's too far behind me now, I am too far gone
G F
I can turn around and go away
F G
That's all you'd have to say

[chorus]

bridge:

G
Help someone up when they're down
F
Just to walk on by would be a crime
G
Don't just leave them on the ground
F G
We all need a hand from time to time

C F
I could haul away that old propane tank
C F
And not stick around for you to thank
G F
If to see it gone makes you smile
F G
That would make it all worthwhile

[chorus + repeat last line]
