

SHIPWRECKS

B E
All my shipwrecks are coming back up, barnacles and all
B E
Every heart I ever broke, every skin that ever crawled
B F# E
Friends I abandoned, words I let out, fortunes I pissed away
B F#
Shipwrecks have nothing new to say

chorus:

B B E
Let's swim into the sunset, leave the past behind
B F# B
There's still gold for you and me to find

B E
Shipwrecks always come back up on a queasy seasick wave
B E
Not what you'd call pretty in the light of day
B F# E
Wise men say whatever comes up, gets up to go
B F#
Shipwrecks leave on their own

[chorus]

E B
I don't need reminders of everywhere I went wrong
E F#
The past is all behind us, it's not where we belong

B E
Shipwrecks have no future, no horizon where they are
B E
If you go down with the ship you won't get very far
B F# E
Shipwrecks don't come up to drown you and me
B F#
Shipwrecks come up to set us free

[chorus]
