

SOUR EVERYTHINGS

C Em F
Won't you whisper sweet nothings in my ear like you used to
C Em Dm
Everyone's so loud these days and not the least bit sweet
C Em F
Screaming sour everythings at me and at each other
C Em Dm
Why is it so cool to disagree?

C Em F
The love songs on the radio are nothing like the ones I remember
C Em Dm
To try and hear the love in them shouldn't be so tough
C Em F
Like all the words are soaked in apple cider vinegar
C Em Dm
They can't spit 'em out fast enough

chorus:
F C
My ears won't stop twitching, everything sounds wrong
F C
I've been missing your sweet nothings way too long
F C
You could whisper a shopping list you made
Dm G C
Just make these sour everythings go away

Dm Em F G
Anything you say would be just fine, Clorox 2 is tough on grime

C Em F
Birds that used to chirped now screech like head-on collisions
C Em Dm
Best for me to leave the storm windows on
C Em F
The toast I burn crackles with obscenities when I butter it
C Em Dm
Not one moment's peace since you've been gone

chorus:
F C
My ears won't stop pounding, everything sounds mean
F C
Without your sweet nothings I turn green
F C
An algebra equation would be perfectly okay
Dm G C
Just make these sour everythings go away
