

THIN ICE

G Em
The pond is not as frozen as it looks
C
I flounder back onto snow
Em
On whose land I don't know
G C
Trespassers will be shot

G Em
Chimney smoke leads me to a house
C
My shivering shakes the porch
Em
Where've I seen this man before?
G C
Mercy boy, he says, come in

G Em
The furnace down here keeps me warm
C
My clothes spin in the dryer
Em
He's out there changing a tire
G C
On that same old blue Oldsmobile

Bm C
A son he had was born on thin ice
Bm C
A leaky heart they said
Bm Am D
And you can tell, he's still mad about it

G Em
He's taking me home to my own dad
C
While my dad still has a son
Em
Death can't be undone
G C
The ice gets thin for all of us (3X)
Am C G
Skating across this life
